- Created dashboards for business insights.
- Assisted in model testing and evaluation.

PROJECTS

AI Resume Screening and Candidate Ranking System

Technologies Used

Python, Flask, SQL, Gemini API, HTML, CSS, JavaScript

Description

- Developed an intelligent ATS Resume Screening application.
- Extracted text from PDF and DOCX resumes.
- Compared resumes with job descriptions.
- Generated ATS scores automatically.
- Ranked candidates based on skills.
- Generated AI-powered recommendations.
- Created downloadable PDF reports.

House Price Prediction System

Technologies

Python, Scikit-learn, Pandas

Description

- Built a regression model for predicting house prices.
- Achieved **89% prediction accuracy**.
- Performed feature engineering and data visualization.

Student Performance Prediction

Technologies

Python, Machine Learning, SQL

Description

- Developed a student performance prediction model.
- Built an interactive dashboard for visualization.
- Improved prediction accuracy using feature selection.

CERTIFICATIONS

- Google Data Analytics Professional Certificate
- Python for Data Science – IBM
- Machine Learning with Python – Coursera
- SQL for Data Analysis
- AWS Cloud Practitioner Essentials

ACHIEVEMENTS

- Solved **320+ coding problems** on LeetCode.
 - Top 10 in Inter-College Hackathon.
 - Best Final Year Project Award.
 - Google Cloud Study Jam Participant.
-
