PROFESSIONAL SUMMARY

Results-oriented Python Developer with **3+ years of experience** in designing and developing AI-powered web applications. Skilled in Python, Flask, SQL, Machine Learning, Deep Learning, REST APIs, and cloud deployment using AWS. Strong understanding of data structures, backend development, and database management. Passionate about solving business problems using Artificial Intelligence and Data Science.

EDUCATION

Bachelor of Technology (B.Tech)

Computer Science and Engineering

ABC Institute of Technology, Bengaluru

2020 – 2024

CGPA: **9.18/10**

Senior Secondary (Class XII)

CBSE Board

2020

Percentage: **91.4%**

Secondary (Class X)

CBSE Board

2018

Percentage: **93.2%**

TECHNICAL SKILLS

Programming Languages

- Python
- Java
- SQL
- JavaScript

Web Technologies

• HTML5 • CSS3 • Bootstrap • Flask • Django	
Database	Cloud & DevOps
• MySQL • SQLite	• AWS EC2 • AWS S3 • Docker • Git • GitHub
Machine Learning	Tools
• Scikit-learn • TensorFlow • Keras • Natural Language Processing • Deep Learning	• VS Code • Postman • Jupyter Notebook • PyCharm
Data Analysis	Operating Systems
• Pandas • NumPy • Matplotlib • Seaborn	• Linux • Windows

PROFESSIONAL EXPERIENCE

Python Developer

TechNova Solutions Pvt. Ltd.

July 2024 – Present

Responsibilities

- Developed scalable web applications using Flask.
- Designed REST APIs for enterprise applications.
- Built Machine Learning models for prediction systems.
- Performed data preprocessing using Pandas and NumPy.
- Improved SQL query performance for large datasets.
- Integrated Google Gemini API into AI applications.
- Deployed applications using Docker and AWS EC2.
- Collaborated with frontend developers using Git.

Machine Learning Intern

Infosys Springboard

January 2024 – April 2024

Responsibilities

- Developed classification and regression models.
 - Worked on customer churn prediction.
 - Performed feature engineering and model evaluation.
 - Created dashboards using Power BI.
 - Documented project workflows.
-

PROJECTS

AI Resume Screening and Candidate Ranking System

Technologies

Python, Flask, Gemini API, HTML, CSS, JavaScript, SQL, Chart.js

Description

- Developed an AI-powered resume screening system.
 - Compared resumes with job descriptions.
 - Calculated ATS scores automatically.
 - Ranked candidates based on matching skills.
 - Generated AI-powered recommendations.
 - Generated downloadable PDF reports.
 - Designed an interactive recruiter dashboard.
-

Customer Churn Prediction

Technologies

Python, Pandas, Scikit-learn

Description

- Built a predictive model for customer churn.
 - Achieved **92% accuracy**.
 - Performed feature selection and preprocessing.
 - Visualized insights using Matplotlib.
-

Sales Analytics Dashboard

Technologies

Python, SQL, Power BI

Description

- Developed an interactive business dashboard.
 - Automated monthly reporting.
 - Improved sales analysis through data visualization.
-

CERTIFICATIONS

- Python for Everybody – Coursera
 - Machine Learning by Andrew Ng – Coursera
 - AWS Cloud Practitioner Essentials
 - SQL for Data Analysis
 - Google Data Analytics Professional Certificate
-

ACHIEVEMENTS

- Solved **450+ coding problems** on LeetCode.
- Finalist – Smart India Hackathon.

- Winner – College AI Innovation Challenge.
 - Published a paper on AI-based recruitment systems.
 - Top 5 in National Level Coding Contest.
-

SOFT SKILLS

- Problem Solving
 - Leadership
 - Team Collaboration
 - Communication
 - Critical Thinking
 - Time Management
 - Adaptability
-

LANGUAGES

- English
 - Hindi
-

HOBBIES

- Reading AI Research Articles
 - Chess
 - Open Source Contributions
 - Cricket
-
